In conjunction with the departmental revision lectures, the Remedial & Intensive Coaching Cell (RICC) at R.A. Podar College of Commerce & Economics (Autonomous) took the initiative to organize a comprehensive series of remedial lectures for students in FYBCom, SYBCom, and TYBCom during the current academic year. These sessions were seamlessly conducted both

in-person and through online platforms, utilizing MS Teams to facilitate a flexible learning environment.

To ensure students were well-informed and engaged, they were provided with clear instructions to join the dedicated WhatsApp group via a shared link, thereby fostering effective communication. In alignment with the specific needs of the students, RICC thoughtfully curated and scheduled these lectures, tailoring them to address individual academic requirements. The comprehensive timetable detailing these lectures is provided below for your convenience.

2. Students who faced challenges, having not successfully completed subjects in Semester-I/II or Semester-III/IV.

These valuable sessions were made accessible to students through the remedial WhatsApp group, which could be joined either via the provided link <https://chat.whatsapp.com/JCI3r5h8bh6L1eeE0kmB2w> or the QR code. Impressively, over 125 students promptly registered and availed themselves of the benefits offered by these lectures.

Furthermore, in response to the requests from SYBCom students, RICC thoughtfully organized additional remedial lectures led by Prof. Ami Vin, focusing on the intricacies of Business Law. The academic year 2022-23 witnessed an encouraging and engaging response from the students, reflecting their active participation and involvement in these supplementary learning opportunities.
