

# Inclusive Cell

**“An Initiative Towards Humanity”**

**Teacher In-charge :** Ms. Karishma Khadiwala  
**Student Secretary :** Ms. Mrunmayee Mayekar.

Inclusive Cell is a forum that works for those students of the college who have learning disabilities. It also communicates with the students of special needs about how the teaching curriculum works, efficiency of study techniques, importance of time management, etc.

The main motive of Inclusive Cell is to encourage the artistic and unique styles of each student.

For the academic year 2021-22, the Inclusive cell forum performed two activities:

## **1. World Disability Day**

3rd December 2021 is observed as World Disability Day every year. On this occasion, the Core Team, several volunteers and our Professor in-charge made an initiative to put forward their thoughts and views in a form of video message. We also used a few posters based on the same.

## **2. Writers for Exams**

The cell volunteers called and asked our college students if they were facing any issues in online teaching. Students were also asked if they needed a writer for exams and if yes, then they were provided with one.
